

## Newsletter – December 2018

We had a very interesting and informative talk at our October meeting by David Sutherland, an Ambassador for Aquaboxes. Apart from a donation to the charity we presented him with a fantastic array of 89 knitted teddies, 69 “Fish and Chip” knitted baby dresses and hats and 3 baby blankets

for the Aquaboxes. He demonstrated how a simple filter could change incredibly dirty and germ ridden water into fresh clear drinking water, totally clear of things germs like Cholera. I, as president, was given the task of drinking the water and I have to say it tasted fine and I am still here!

On the 11<sup>th</sup> I had the privilege of laying a wreath for Inner Wheel at the Cenotaph in Marlow on the Remembrance Day Service which this year, being the 100<sup>th</sup> anniversary of the end of World War 1, was packed with people well up the High Street, and was a particularly poignant and special occasion.

Our Bridge Drive in November was a very successful and enjoyable afternoon both for the players and the helpers. At least the weather was kind this year and the kitchen was warm. All the helpers had a fun afternoon, with some very noisy laughter, nearly

upsetting the bridge players. We received so many compliments on the amazing tea we provided and that was down to so many of you for helping to make

sandwiches, scones and cakes yet again. All of these, of course, served with matching china tea sets! Well done everyone and a big thankyou from me.

Great fun and fellowship were had at Toad hall where we had our Pub Lunch and we were also able to do some Christmas shopping in the Garden Centre Christmas shop. It was good to have Maureen with us on this occasion.

Six of us went to Benson for the District meeting and lunch, and as ever, we had a good time of fellowship with members from other clubs and heard a very moving and informative talk about pancreatic cancer, our District Chairman’s chosen Charity.

Another very busy month!

Wishing you all a very Happy Christmas
